No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                         1 atggggccagttgttgaaaa.......cgggagttaaagtgaagcta 924
